

UC13-3

06.013-Uxxx

3000 bar | 43k psi

Advantages:

- **NEW:** high jetting density
3000 bar 43k psi
- **NEW:** different flowrates
with sapphire inserts
- for bends | built very short
- for flex and rigid lance with
and w/o thrust
- Long lifetime | sapphire inserts

Area of application:

- to unplug , polish or to clean
universally
- to clean tubes of heat
exchangers
- tubes diameter 15-25 mm /
0.60-1.0 inch (US)

Specifications:

Max. pressure	3000 bar 43'000 psi
Min. flow with thrust	20 l/min 5.3 gpm
Min. flow without thrust	17l/min 4.5 gpm
Connection thread	1/4"-28 UNF LH 3/8"-24 UNF LH
Length	53 mm 2.1"
